

I entered the host and left everything else as is.

Next I am going to click on Colours under Window and set the background and foreground colors. The default is a black background with white text which I think is hard to read so I want white background with black text.

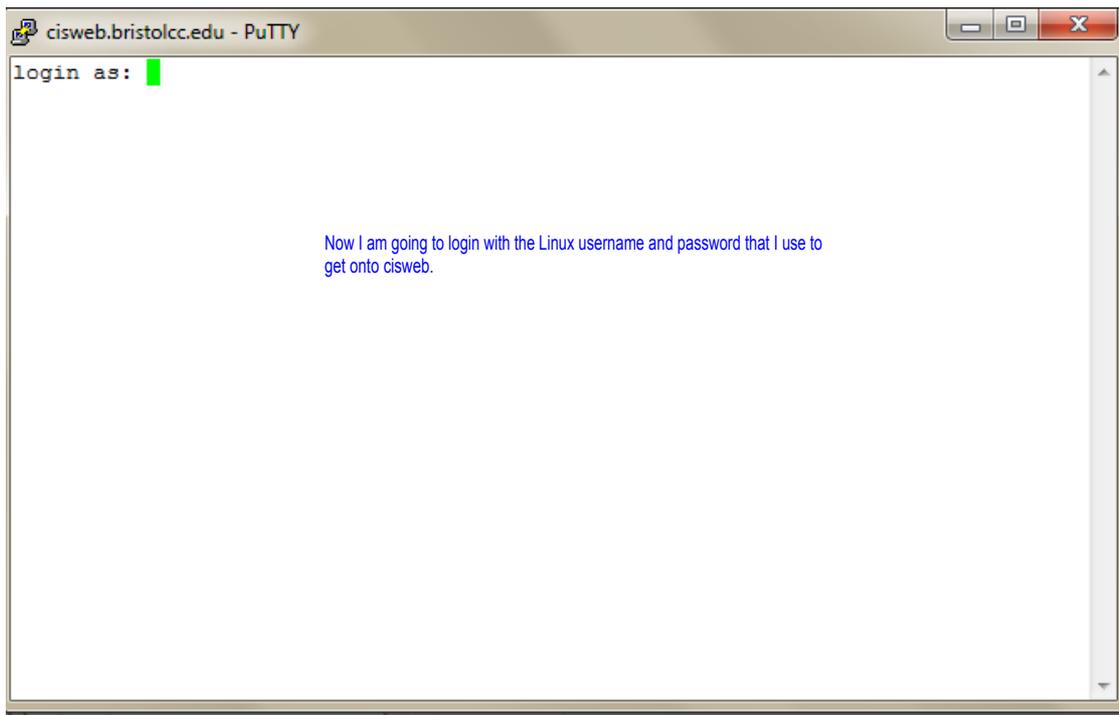

I am going to set Default Foreground and Default Background. I click on one of them and then on Modify.

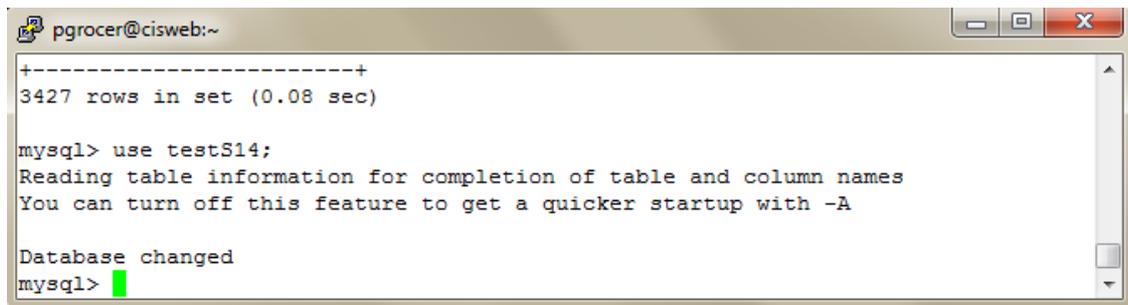

Now the foreground is set to white, I am changing it to blank and then I will do the same thing and change the background color from black to white.

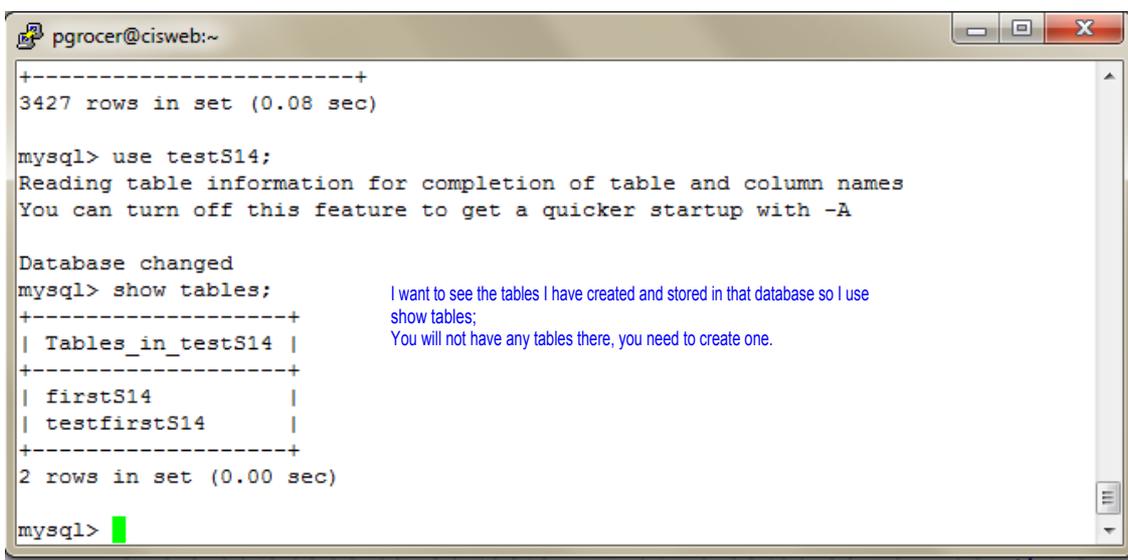

```

owners.  
  
Type 'help;' or '\h' for help. Type '\c' to clear the current input statement.  
mysql> Now I can start doing mysql.
```

Now at the mysql prompt, I can enter
show databases;
When I do that, I get a load.
When you do that you apparently get 4 but the two that you are interested
in are the ones that have your username_1 or username_2.
All of the tables you create in this course should go into one of those
two databases.
Pick one of them and say use username_1; or use username_2;
I have a database called testS14 that I created so I am using that.

```
pgrocer@cisweb:~  
+-----+  
3427 rows in set (0.08 sec)  
  
mysql> use testS14;  
Reading table information for completion of table and column names  
You can turn off this feature to get a quicker startup with -A  
  
Database changed  
mysql> █
```

```
pgrocer@cisweb:~
+-----+
3427 rows in set (0.08 sec)

mysql> use testS14;
Reading table information for completion of table and column names
You can turn off this feature to get a quicker startup with -A

Database changed
mysql> show tables;
+-----+
| Tables_in_testS14 |
+-----+
| firstS14          |
| testfirstS14     |
+-----+
2 rows in set (0.00 sec)

mysql>
```

I want to see the tables I have created and stored in that database so I use show tables;
You will not have any tables there, you need to create one.

```

pgrocer@cisweb:~
mysql> show tables;
+-----+
| Tables_in_testS14 |
+-----+
| firstS14           |
| testfirstS14      |
+-----+
2 rows in set (0.00 sec)

mysql> create table stuS14
-> (idno int(4),
-> stuname varchar(25),
-> major char(2),
-> gpa float(3,2),
-> numcrs int(3));
Query OK, 0 rows affected (0.01 sec)

mysql> desc stuS14;
+-----+-----+-----+-----+-----+-----+
| Field | Type          | Null | Key | Default | Extra |
+-----+-----+-----+-----+-----+-----+
| idno  | int(4)        | YES  |     | NULL    |       |
| stuname | varchar(25)   | YES  |     | NULL    |       |
| major | char(2)       | YES  |     | NULL    |       |
| gpa   | float(3,2)    | YES  |     | NULL    |       |
| numcrs | int(3)        | YES  |     | NULL    |       |
+-----+-----+-----+-----+-----+-----+
5 rows in set (0.01 sec)

mysql> show tables;
+-----+
| Tables_in_testS14 |
+-----+
| firstS14           |
| stuS14             |
| testfirstS14      |
+-----+
3 rows in set (0.00 sec)

mysql> █

```

I create a table called stuS14 with the structure shown.
 Note that to see the structure, I can use desc stuS14;
 A list of datatypes and their description is at
http://www.w3schools.com/sql/sql_datatypes.asp?output=print

```

pgrocer@cisweb:~
+-----+-----+-----+-----+-----+-----+
| Field | Type      | Null | Key | Default | Extra |
+-----+-----+-----+-----+-----+-----+
| idno  | int(4)    | YES  |     | NULL    |       |
| stuname | varchar(25) | YES  |     | NULL    |       |
| major | char(2)   | YES  |     | NULL    |       |
| gpa   | float(3,2) | YES  |     | NULL    |       |
| numcrs | int(3)    | YES  |     | NULL    |       |
+-----+-----+-----+-----+-----+-----+
5 rows in set (0.01 sec)

mysql> show tables;
+-----+
| Tables_in_testS14 |
+-----+
| firstS14           |
| stuS14             |
| testfirstS14      |
+-----+
3 rows in set (0.00 sec)

Now I am adding two records to the table and then
using the select to show the records in the table.

mysql> insert into stuS14
-> values (1111,'Susan French','CI',3.75,24);
Query OK, 1 row affected (0.00 sec)

mysql> insert into stuS14
-> values (1212, 'Daniel Smith','CI',3.65,32);
Query OK, 1 row affected (0.00 sec)

mysql> select *
-> from stuS14;
+-----+-----+-----+-----+-----+
| idno | stuname      | major | gpa | numcrs |
+-----+-----+-----+-----+-----+
| 1111 | Susan French | CI    | 3.75 | 24     |
| 1212 | Daniel Smith | CI    | 3.65 | 32     |
+-----+-----+-----+-----+-----+
2 rows in set (0.00 sec)

mysql> █

```

```
pgrocer@cisweb:~  
  
mysql> select *  
  -> from stuS14;  
+-----+-----+-----+-----+-----+  
| idno | stuname      | major | gpa  | numcrs |  
+-----+-----+-----+-----+-----+  
| 1111 | Susan French | CI    | 3.75 | 24     |  
| 1212 | Daniel Smith | CI    | 3.65 | 32     |  
+-----+-----+-----+-----+-----+  
2 rows in set (0.00 sec)  
  
mysql> insert into stuS14  
  -> values (1234, "James Costa", "CI", 3.25, 45);  
Query OK, 1 row affected (0.00 sec)  
  
mysql> insert into stuS14  
  -> values (2222, 'Linda Ames', "CI", 3.66, 42);  
Query OK, 1 row affected (0.00 sec)  
  
mysql> insert into stuS14  
  -> values (2345, 'Mary South','BU',3.12, 28);  
Query OK, 1 row affected (0.00 sec)  
  
mysql> select * from stuS14;  
+-----+-----+-----+-----+-----+  
| idno | stuname      | major | gpa  | numcrs |  
+-----+-----+-----+-----+-----+  
| 1111 | Susan French | CI    | 3.75 | 24     |  
| 1212 | Daniel Smith | CI    | 3.65 | 32     |  
| 1234 | James Costa  | CI    | 3.25 | 45     |  
| 2222 | Linda Ames   | CI    | 3.66 | 42     |  
| 2345 | Mary South   | BU    | 3.12 | 28     |  
+-----+-----+-----+-----+-----+  
5 rows in set (0.00 sec)  
  
mysql> █
```

```

pgrocer@cisweb:~
+-----+
| 1111 | Susan French | CI | 3.75 | 24 |
| 1212 | Daniel Smith | CI | 3.65 | 32 |
| 1234 | James Costa | CI | 3.25 | 45 |
| 2222 | Linda Ames | CI | 3.66 | 42 |
| 2345 | Mary South | BU | 3.12 | 28 |
+-----+
5 rows in set (0.00 sec)

mysql> select idno, stuname, major, gpa
-> from stuS14
-> where major = 'CI';
+-----+
| idno | stuname | major | gpa |
+-----+
| 1111 | Susan French | CI | 3.75 |
| 1212 | Daniel Smith | CI | 3.65 |
| 1234 | James Costa | CI | 3.25 |
| 2222 | Linda Ames | CI | 3.66 |
+-----+
4 rows in set (0.00 sec)

mysql> select idno, stuname, major, gpa
-> from stuS14
-> where major = "CI";
+-----+
| idno | stuname | major | gpa |
+-----+
| 1111 | Susan French | CI | 3.75 |
| 1212 | Daniel Smith | CI | 3.65 |
| 1234 | James Costa | CI | 3.25 |
| 2222 | Linda Ames | CI | 3.66 |
+-----+
4 rows in set (0.00 sec)

mysql> █

```

Now I am selecting certain fields and only records that meet the criteria that major is CI.

I tend to use single quotes but note that when I used double quotes it worked.

```

pgrocer@cisweb:~
mysql> select idno, stuname, major, gpa, numcrs
-> from stuS14
-> where major = 'CI' and numcrs > 40;
+-----+-----+-----+-----+-----+
| idno | stuname      | major | gpa  | numcrs |
+-----+-----+-----+-----+-----+
| 1234 | James Costa | CI    | 3.25 | 45     |
| 2222 | Linda Ames  | CI    | 3.66 | 42     |
+-----+-----+-----+-----+-----+
2 rows in set (0.01 sec)

```

Two criteria in an AND relationship.

```

mysql> select *
-> from stuS14
-> where major = 'CI' or numcrs < 30;
+-----+-----+-----+-----+-----+
| idno | stuname      | major | gpa  | numcrs |
+-----+-----+-----+-----+-----+
| 1111 | Susan French | CI    | 3.75 | 24     |
| 1212 | Daniel Smith | CI    | 3.65 | 32     |
| 1234 | James Costa  | CI    | 3.25 | 45     |
| 2222 | Linda Ames   | CI    | 3.66 | 42     |
| 2345 | Mary South   | BU    | 3.12 | 28     |
+-----+-----+-----+-----+-----+
5 rows in set (0.00 sec)

```

Two criteria in an OR relationship.

```

mysql> select * from stuS14
-> where major = 'CI' and (gpa > 3.65 or numcrs > 45);
+-----+-----+-----+-----+-----+
| idno | stuname      | major | gpa  | numcrs |
+-----+-----+-----+-----+-----+
| 1111 | Susan French | CI    | 3.75 | 24     |
| 2222 | Linda Ames   | CI    | 3.66 | 42     |
+-----+-----+-----+-----+-----+
2 rows in set (0.00 sec)

```

Three criteria where the first one must be true and then either the second or third must be true.
So, major must be CI and either gpa > 3.65 or numcrs > 45.

```

mysql> select * from stuS14
-> where major = 'CI' and (gpa > 3.65 or numcrs > 40);
+-----+-----+-----+-----+-----+
| idno | stuname      | major | gpa  | numcrs |
+-----+-----+-----+-----+-----+
| 1111 | Susan French | CI    | 3.75 | 24     |
| 1234 | James Costa  | CI    | 3.25 | 45     |
| 2222 | Linda Ames   | CI    | 3.66 | 42     |
+-----+-----+-----+-----+-----+
3 rows in set (0.00 sec)

```

Better example where major must be CI and either gpa > 3.65 or numcrs > 40.
